Office

- Large 1.5 litre boiler made with 99.9% pure copper and brass fittings
- Thermosyphon heated group via tube in tube heat exchanger
- Insulated boiler for improved temperature stability
- Built-in vibration motor/pump with air bleed valve to stop air locks
- Adjustable expansion/pressure regulator for setting correct pump pressure
- Low water level safety switch turns machine off when water low
- Commercial steam and hot water tap's
- Direct pre-infusion chamber on each group
- Pressure relief valve
- Water tank of 2.75 litres
- Water softener filter
- Automatic refill of steam boiler
- Polished stainless steel body panels

Features

① Office Control

- Four programmable volumetric dosage's and one manual dose button
- Optional in built electronic pre-infusion
- Inbuilt back flush program for ease of cleaning
- Optional Plumb in Kit
- Commercial group
- Automatic control of extraction time and volume

② Office Leva

- Steam pressure gauge
- EB-61 commercial lever brewing group
- Manual control of extraction time and volume

③ Office Semi Automatic

- Commercial Group
- Simple operation
- Manual control of extraction time and volume
