

EXPOBAR – 1 GROUP OFFICE BARISTA MINORE

Perfect for the home or office, this ExpoBar Office Machine packs a lot of features into its compact stainless-steel body.

The machine is fully self-contained and requires no plumbing in, with its inbuilt water tank and drip tray.

If you really want to feel like a true barista in your own home, then this is the perfect machine for you!

Able to pour your coffee shot while you froth your milk, so there is no time to wait.

The Leva on this machine, gives you full control over your coffee shot.

A dual boiler system of which each is 1.5ltrs in capacity and has a large 2000 watt element in each boiler. The largest boiler capacity to element wattage in its class. Both boilers are insulated to help reduce heat loss. One boiler is for producing steam, hot water and to pre-heat the water entering the brew boiler. The steam boiler is controlled by an adjustable pressure stat and the brew boiler is dedicated for maintaining the perfect temp of water for extraction of coffee via the group head. It does this with its PID temp controller which can be set very easily to the desired extraction temp for the coffee you are using. Has one hot water tap and one steam arm (stainless-steel).

TECHNICAL SPECIFICATIONS

- Functionality: Semi-Automatic Control
- Power Requirements: Single Phase
- Maximum Installed Power: 10 amps
- Boiler Size: 1.5 + 1.5 ltrs
- Boiler Composition: 99.9% Pure Copper
- Automatic Boiler Filling: Yes
- Manual Boiler Filling: No
- Heating Element Power: 2 x 2000 watts
- Hot Water Outlets: 1
- Steam Outlets: 1
- Steam Pressure Gauge: Yes
- Pump Type: Vibration
- Standards Compliance: CE
- Pump Pressure Gauge: Yes

Weight: 25kg

Dimensions: 26 x 45 x 38 cm
